Mia Goldberg and Lily Spiniolas
Final Mockup Notes

- Coming along so nicely!! Clear usability, clear concept, clear navigation and overall so fun to look at and engage with
- Idea: Key songs/key lyrics or clips from interview on album pages
- Nav bar on individual pages -- matching album aesthetic
- Changing colors and design on each page based on the album aesthetic
- Difficulty with text on mobile layout -- how to replicate overlapping rainbow text?
    - Maybe keep the "Frank Ocean" but add some overlap, doesn't need to be exactly the same on both mobile and web
- I love the hover states!!
- Clickable titles: clicking the word "art" or "more" takes you to the more page
- Love the idea of licking the image taking you to a specific part of the more page depending on what you click!
